**Product Overview**

We are a leader in this field. Over 25 years experience allows us to design and recommend a wide variety of products. Engraved wall Signs offer the building owner simple yet cost effective solutions to a growing organization. Color, shape and sizes are endless.

**Standard Sizes**

Available in 1" increments from 1"x4" to 8"x24".

**Colors**

Rowmark or Hermes Standard. We also have the ability to create custom color signs.

**Accessories**

Holes

3M mounting tape

Both holes and tape

**Options**

We use a variety of materials to achieve the look you desire, while keeping costs to a minimum. Modular Signs, Architectural Signs in Anodized Aluminum, Designer Plastic Frames, Euro Sign Systems, Premier Frames, Frames with Lenses, all compliment the Engraved Wall Signs.

## Engraved Wall Signs

### General Specifications for Engraved Wall Sign Frames

#### Euro Sign System

The Euro Sign System with 20 standard sizes and five anodized colors is designed to make tamper resistant signs and directories. The clean lines of both the 3/8" round or 3/8" square extrusions make an attractive, functional and inexpensive solution to interior signage. Available colors are Satin Silver, Polished Silver, Matte Black, Polished Yellow Gold and Polished Rose Gold. Square and round headed screws are specially designed to cap off extrusions, and lock in the holder assemblies. Simply remove the top screws and slide sign assemblies out for a quick change.

#### Premier Frames

Precision mitered from an extrusion of premium alloy in the professional styles - Beveled, Radiuses, and Boxed - makes this sign system a top of the line favorite. Each style has several features that make professional signs simple.

- Each frame is designed for complete support of 1/16" sign material.
- Eight rich anodized colors are available in all three styles.
- Minimum size is 2"x4" and Maximum size 10"x15".
- A trough 1/2" wide runs the entire inside perimeter of each frame which accommodates adhesive or Snap in Place assembly.
- Frames are designed for mounting to wall or door with double-sided tape or silicone-type adhesive.

#### Premier Plus Frames

Precision mitered from an extrusion of premium alloy in four professional styles: Beveled, Quarter Round, Boxed, and Quarter Inch Solid, makes this sign system a top of the line favorite.

- Eight rich anodized colors are available in all four styles: Polished Silver, Satin Silver, Polished Yellow Gold, Satin Yellow Gold, Polished Rose Gold, Arch Bronze, and Matte Black.
- Seven powder coat finishes are available: Medium Gray, Pewter (light gray) Black, White, Almond, Brown and Arch Brown.
- Each frame style is available with either a 3.16" or 5/16" inside depth. Inside depth must be specified when ordering.
- Frames are designed for mounting with double-sided tape or silicone adhesives. Holes will be provided only upon request.
- All frames are available with optional matte black metal inside, suitable for changeable magnetic signs.
- Lenses are laser cut from semi-flexible .080 non glare acrylic and are designed with tabs that snap securely into frames. Lenses can easily be removed by using suction cup placed in the center of the frame.
- Minimum size 2"x4" up to 10"x15".

#### Architectural Aluminum Frames

Specialty requirements for room identification and control are accomplished with these unique frames. They feature built-in changeable messages, magnetic changeable signs and frames with dividers. Frames are fabricated from continuous anodized aluminum extrusion in six standard colors: polished silver, polished yellow gold, polished rose gold, satin silver, matte black and medium bronze.

- Seven powder coat finishes are available: Medium Gray, Pewter (light gray) Black, White, Almond, Brown and Arch Brown.
- Available with a Matte Black inside metal surface for changeable magnetic signs.

#### Heavy Architectural Signage

This line of frames is fabricated from a heavy 1/8" thick wall, and 1.75" and 1.25" wide extrusion. They can be used either as a double or single frame for counters, desks or walls. All frames are custom fabricated to your specifications. Sharp clean square corners are fabricated from continuous extrusion.

- Eight rich anodized colors are available in all four styles: Polished Silver, Satin Silver, Polished Yellow Gold, Satin Yellow Gold, Polished Rose Gold, Arch Bronze, and Matte Black.
- Not available in Powder Coat finishes.

## Engraved Wall Signs

### General Specifications for Engraved Wall Sign Frames (continued)

#### *Aluminum Frames with lenses*

Matte clear acrylic based lenses are laser cut to snap in and out of anodized aluminum frames, round or square cornered. Lenses can be screen-printed, and have tactile or Braille mounted to them while exposing a paper graphic. Snap lenses are designed for custom size aluminum frames in sizes from 6 to 200 square inches.

- Frames have 1/8" wall thickness, ½" outside depth with a 1/8" masonite backer.
- Lenses snap in and out with the aid of a suction cup placed in the center of the lens.
- Dividers are used to make multi-lens compartments.
- Special matte black dividers can be used to make compartments under a single lens.
- Frames can be made to accommodate paper and 1/32", 1/16" or 1/8" sign material.
- Eight rich anodized colors are available in all four styles: Polished Silver, Satin Silver, Polished Yellow Gold, Satin Yellow Gold, Polished Rose Gold, Arch Bronze, and Matte Black.

#### *Decorative Bars*

Three sizes of decorative bars create bold metallic borders for your signs. Formats of top and bottom or left side, right side are available. One can use equal size bars or mix two different sizes. All three sizes can be made into a complete four-sided frame, and all formats can accommodate a snap-in matte clear lens.

- Bars are available in five anodized finishes: Polished Yellow Gold, Polished Rose Gold, Matte Black, Polished Silver, and Satin Silver. All parts are anodized individually to give finished ends.

#### *Architectural Plastic Frames and Plates*

The 7000 series round corner and 8000 series square corner molded plastic frames are designed for quality interior signage. Each frame is molded in one of 6 matte colors: Gray Almond, White, Brown, Arch Brown and Black. All frames have a ½" outside depth, 1/8" thick walls, and mounting holes for attaching to walls. The size of each frame is listed as an inside dimension and the inside radius on the round corner frames is 5/16". Each Frame is designed to accommodate all sign material from 1/16" to 1/8" thick, or it's own plastic injected molded plate.

#### *Designer Plastic Frame System*

Designer is a round corner plastic molded sign system with features created to solve your many sign requirements. It is available in 10 different sizes all with round corners and 6 matte colors: Pewter gray, Medium Gray, Back, White, Almond and Brown.

Designer 2 is a handsome sign system with ¼" walls, clean square corners, and many features to solve the most difficult sign requirements. Designer 2 is molded in 10 sizes and 6 matte plastic colors: Pewter gray, Medium Gray, Back, White, Almond and Brown.

#### *Eternity*

Over thirty ready-to-use aluminum signs for indoor and outdoor use that can be customized to suite your needs. The Eternity system is easily adaptable and is modular, with a clip on system that can be arranged in both vertical and horizontal formats.

#### *Modular Frame System*

Designed for interior signage. Frame construction provides flexibility for installations and sign inserts. Signs change over easily. Sign inserts fit securely into frames with a snap lock mechanism. Frames and inserts are tamper-resistant.

#### *Slatz Sign Systems*

Our exclusive Engravers Sign System combines silver and gold aluminum shapes and injection-molded plastics into a unique system of interchangeable components for single signs and directories. Some assembly required. We simply engrave the inserts, snap into place, and your interior sign system is ready for installation.
